

Yellow Jacket is still advancing and touched higher figures yesterday than have been known for a long time. All the stocks are well sustained and the number of shares dealt in shows that the old ledge is about to wake out of its sleep like a giant refreshed with wine. The people of Nevada, while they don't want Sharon as a politician, will hail him with acclamations as a miner, and there is not a man in Nevada would not assist him by every means in his power to wrest the control of the Comstock from the accursed Bonanza firm. In the old days of the Sharon control money was as plenty as water in Nevada, the market rose and fell like a sea in a storm and the man was indeed stupid and bull headed who could not now and then pluck a handsome winning out of the flood. The mines were worked for all they were worth and the bullion output was scattered broadcast throughout Nevada among the many. When the Flood and Fair crowd got control by winning in a court of law what did not belong to them and only came into their clutches through the clubs of hired roughs, the State passed into the hands of as merciless a combination of money sharks as ever established themselves in business. The bullion output for years went past the Carson Mint to be sold at a slight advance to China, the bonanzas were avoided, the market was depressed, the stockholders were assessed and all the products of the ground went into the exhaustless and morbid maw of that bottomless sink of shattered fortunes, the Nevada Bank. The State has wilted under the depression for years and the money kings of the Bonanza firm have hoarded up their millions in the meantime and still cry out like spoiled children that they must have the miners work for \$3 a day or they cannot work the Comstock at a profit. Old Flood's desire to accumulate riches has so saturated his miserly anatomy that he has alienated all the friends he ever had by trying to them worse than a common chipper of the street would lie to an utter stranger. Jim Fair is nearly driven to insanity by remorseful conscience and goes about heaping slanders upon his own family. O'Brien is stored away in Lone Mountain and John Mackey, the only decent man in the crowd, is traveling through Europe to enjoy himself. The fact that the mines all along the ledge are selling for ten per cent. of the ore in sight, and in most instances less than the value of the hoisting machinery, is a sufficient evidence of the utter rottenness of the management of the past few years. If there ever was a time when enterprising men could step in and take control, now is that time.

The editor of the Redding Independent having stated that his journal was a strict temperance organ and a supporter of the cause, the facetious editor of the Chico Record was inspired to address him as follows: "Brother Cooper, we had supposed you had ascertained long ago that nineteen men drink liquor where one takes a newspaper, and generally the twentieth man drinks liquor also! This consideration has frequently caused us to consider the propriety of quitting the printing business, which is supported by one out of every twenty, and engaging in the liquor business, where we would have the support of nineteen out of every twenty persons in the State, and of the twentieth person on the sly."

Charles A. Dana told a San Francisco reporter that the principal issue of the next presidential campaign would be to turn out the Republican party. Dana has very tersely summed up the situation as it was never summed up before.

The compositor who set up "twenty-four solemn keepers of Morris, Ill., have branded to ether to control the politics of that town," evidently knew the working of politics, even if he did not follow copy.

Judge Whitman of Virginia City has been placed on the West Point Visiting Board by President Arthur. A deserved compliment to a good Nevada man.

Railroad Decision.

WASHINGTON, May 3.—Judge Lawrence, First Controller of the Treasury, rendered a decision to-day in favor of the St. Louis & San Francisco Railroad Company upon its claim for transportation services on account of the United States from St. Louis to Springfield, Missouri. The question involved was whether or not the land-grant railway companies are entitled to payment by the government for transportation of service. The act making the grant of public lands in aid of the St. Louis & San Francisco Railroad Company provides that this railroad shall remain a public highway for the use of the government of the United States, free from tolls or other charges upon the transportation of any property or troops of the United States. Judge Lawrence, however, holds that Congress, having in subsequent acts made appropriations to land grant railways which had not received aid in government bonds of 50 per cent. of the full amount due for transportation services, coming out upon their written acceptance of the terms of the Act (which are simply a relinquishment of further claims for compensation beyond 50 per cent. and the St. Louis & San Francisco Company having filed its acceptance with the Third Auditor of the Treasury, is entitled to payment at the rate of 50 per centum of the full amount upon the basis of the general tariff rates.

After the Railroad.

DES MOINES, Ia., May 3.—L. S. Coffin took his place in the Railway Commission to-day. The Board have never been able to get a report from the Union Pacific road regarding the business done over the bridge at Council Bluffs, and the commission recently brought out at Council Bluffs against the company. Since then part of the Board's questions have been answered, but the company evaded answering the others, including the tonnage received and forwarded over the bridge, claiming that the figures could not be obtained. The company also object that this is a national and not a State corporation and that the company's printed report ought to be sent to the Board. The Board to-day instructed the Attorney General to press the suit already begun.

A King Captured.

KANSAS CITY, May 3.—Sheriff Main, T. Bowman and Major A. J. Fountain, of New Mexico, with a posse of Mexican soldiers passed through here yesterday, en route for Lavenworth, having in charge John Kinney, known as the "King of the Rattle," and eight members of his gang. They are under sentence of long imprisonment at Fort Leavenworth. This gang has been for years a terror to citizens throughout New Mexico and Texas, and has carried on systematic depredations, chiefly in cattle stealing. During Major Fountain's raid some months ago 23 men were captured, of whom 14 were sentenced to jail in various parts of New Mexico and Texas.

A Congressman Indicted.

HARRISBURG, May 3.—The Grand Jury to-day returned an indictment of murder against Hon. Philip B. Thompson, Jr., for killing Walter H. Davis on April 27th. The return was made late this afternoon, and Thompson will be arrested to-morrow. The indictment creates much surprise, though it is generally approved. Thompson and his friends expected the indictment would be for manslaughter. It is expected that the prisoner's father, one of the ablest lawyers in Kentucky, will be his counsel. A sentiment is growing that the killing of Davis is to be classed as an assassination, and there is a disposition to criticize the conduct of Miss Beckner, upon the strength of whose statement her cousin it is supposed he made his attack on Davis.

Bliss on Dorsey.

WASHINGTON, May 3.—In the Star route trial to-day Bliss continued to address the jury. "If Dorsey was an innocent man," said he, "Why did he continue to reside in his employment after he discovered his character? Why did he seek to compound a felony with him to prevent him from testifying, instead of defying him to do his worst?" Bliss admitted that the government witness, Moore, was not a man of the highest style, but asked if it was natural that contractors should employ men of high character to do illegal work.

WASHINGTON, May 3.—The President has appointed the following members of the Board of Visitors to the West Point: Rear Admiral C. P. Rogers; Bishop Wm. I. Kin, of Cal.; Hon. J. N. Arnold, of Ill.; Hon. B. C. Whitman, of Nevada; Howard Potter, of New York; Hon. Asa French, of Massachusetts and C. L. M. Dayton of Ohio.

CHICAGO, May 3.—A meeting of two hundred street cable-railroad employees was held last night for the redress of certain grievances, the chief one being the new rule of the company compelling one conductor to take charge of two cars, thereby involving heavy labor and increasing the danger of loss of life.

The Strikers.

ST. LOUIS, May 2.—The union stone-cutters and plasterers went on a strike to-day. They presented a demand to the bosses yesterday for an increase from \$3 50 to \$4 a day, and the establishment of uniform rates. The employers refused to accede, and this morning about 500 stone-cutters and 600 plasterers quit work. The bricklayers will to-morrow demand an increase of half a dollar a day, which the bosses will not accede to, and they will probably strike. There are rumors of the usual Spring strikes in the various trades.

SHEWANDON, Pa., May 2.—Work at the colliery of the Lehigh Valley Coal Company was stopped to-day by a strike of the loaders. They have been loading twenty-two cars a day, but now refuse to load more than sixteen. Hence the strike.

PHILADELPHIA, May 1.—The Press of to-day says: Six thousand coal miners, who work in the region around Pittsburgh, go out on a strike. One month later the iron workers will follow their example, unless wiser counsels prevail than have been manifested in the various labor movements thus far. If the coal diggers stay out any length of time, the iron and steel manufacturers will view a strike of their own men with comparative indifference, as they cannot run very long anyhow if the output of coal is seriously restricted. The prospect is dismal enough, only a faint ray of hope being discernible in the possible efficacy of the new Arbitration law, of whose success or failure working, however, it is impossible to feel very sanguine.

Tynan, Walsh & Co.

NEW YORK, May 3.—The Express says that the necessary affidavits to secure the extradition of Tynan ("Number One") have been here for nearly two weeks. A diligent search for Tynan, Sheridan and Walsh, who have been indicted in Dublin for the murders of Cavendish and Burke, was made to-day, but none of them could be found.

A DENIAL FROM WASHINGTON.

WASHINGTON, May 3.—There is no truth in the London rumor that the United States government has consented to extradite Tynan, Walsh and Sheridan. The State Department has not received any communications on the subject.

BOSTON, May 3.—The House to-day voted \$90,000 to the Tewksbury Almshouse, which is the same appropriation as in the voted Charity bill.

FOREIGN NEWS.

DUBLIN, May 3.—The sort note of Delany will probably be committed to life servitude. Joseph Hanlon, awaiting trial, has been finally accepted as an informer. He will confirm the evidence of the two Curies against thirteen prisoners in Kilmurham jail charged with conspiracy to murder.

Lawrence Hanlon was arraigned on the charge of attempting to murder the juror, Denis Friel. He pleaded not guilty, and trial has begun.

The Grand Jury have returned true bills against Tynan, Walsh and Sheridan for murder, and against Fitzharris as accessory after the fact. All of these men are supposed to be in America, and it is understood that the English government will demand their extradition.

The Grand Jury have found true bills against Edward O'Brien and Edward McConry for participation in the murders of Cavendish and Burke.

It is rumored here and in London that the United States government has consented to extradite Tynan, Walsh and Sheridan.

PARIS, May 3.—The Minister of Foreign Affairs, speaking in the Senate on the triple alliance, said he believed in the sincerity of the declarations of the Italian Foreign Minister and the Hungarian Premier, that no idea of aggression against France was entertained. He believed the alliance would not in any way change the relations of France with the Powers. France must be prudent, for a vanquished country that is regaining its strength and which is condemned to maintain a large defensive force, must not be surprised to find itself exposed to jealousy and distrust.

MONTREAL, May 1.—A genuine specimen on an extensive scale of Irish destitution and poverty was witnessed here yesterday, by the arrival of 300 immigrants from Connemara, en route to St. Paul, Minnesota, with the intention of settling in that State. They were accompanied by a young priest, to whom they looked for counsel and assistance, as they were all in an impoverished condition. Their apparel was indeed miserable in the extreme—each poorly clad for this climate and a great many without shoes. They were mostly in families and seemed careworn and emaciated. Even the train hands were afraid to enter the cars until the voyagers came out and the hose was applied to wash out the interiors.

CAIRO, May 3.—A telegram has been received from Colonel Hicks reporting that on the 29th ult. he had an engagement with 5,000 rebels. The battle, which lasted half an hour, resulted in the defeat of the rebels with 500 killed, including the Lieutenant-General of Ewaldi, the False Prophet, and many wounded. The Egyptian losses are slight. Hicks praises the gallantry of the Egyptian troops.

LONDON, May 3.—Gallagher, Wilson, Curran, Ansbury, Whitehead and Dalton, the men charged with treason-felony in connection with the dynamite conspiracy, were again arraigned this morning and remanded for another week.

...In a difficulty on Saturday last between Isaac and a prominent farmer near Little Spring, Franklin county, and Amos Bailey, a colored man, the latter took the former over the head, a Cain died on Monday. Tuesday morning a party of armed men took Bailey from the Sheriff's possession and hanged him.
